Summary

1. ## Identify Lists

   ➢ Presence of certain words called markers indicate presence of a list.

   – Words such as: and, or, but, either..or, not..but, rather than, from..to, both..and

   – Certain verbs that show similarity such as: is, represents, appears

   Note: This is not an exhaustive list. There may be more words that acts as markers.

2. ## Check Validity of Lists

   ➢ All elements of the list must talk about a common topic/theme/idea.

3. ## Check Correctness (or parallelism) of Lists

   ➢ All elements of list must maintain same structure

      ➢ i.e. Order of appearance of words must be the same

   ➢ Each element of list must play same role.
